L'opera, aggiornata alla legge 11 dicembre 2012, n.220 (Riforma del condominio), analizza, con dettaglio dottrinale e giurisprudenziale, tutte le problematiche che coinvolgono il condominio. La struttura degli argomenti e il linguaggio discorsivo imprime un taglio di 'praticità' al contenuto in quanto segue i comportamenti che il professionista sia esso amministratore che avvocato debba tenere nello svolgere l'attività a cui è preposto. Il testo riporta le recenti interpretazioni giurisprudenziali che in parte anticipano ciò che la nuova riforma ha trasformato in normativa, ma nella maggior parte dei casi illustrano come applicare la disciplina corrente, pensata dal legislatore nella stesura del codice civile, adattandola alle situazioni condominiali in continua evoluzione con il passare del tempo. Tra gli argomenti trattati vi sono: - DISCIPLINA DELLE PARTI COMUNI DELL'EDIFICIO - UTILIZZO DELLE PARTI DI PROPRIETÀ ESCLUSIVA - L'ASSEMBLEA CONDOMINIALE - REVOCA, MODIFICA ED IMPUGNAZIONE DELLE DELIBERE CONDOMINIALI - L'AMMINISTRATORE DI CONDOMINIO - IL REGOLAMENTO DI CONDOMINIO - LA RESPONSABILITÀ NEL CONDOMINIO - LE TABELLE MILLESIMALI - IL REGIME DELLE SPESE - LA SOPRAELEVAZIONE - LE BARRIERE ARCHITETTONICHE - IL PICCOLO CONDOMINIO - IL SUPERCONDOMINIO - Le controversie condominiali: il rito applicabile - Il Giudice competente - La mediazione - Le liti attive e passive: rappresentanza in giudizio dell'amministratore - Il dissenso alle liti - L'impugnazione delle delibere assembleari - Forma dell'atto giudiziario - Il decreto ingiuntivo nei confronti del condomino moroso - Il condomino apparente - La vendita dell'appartamento - I terzi-creditori - Il fallimento del condomino - L'opposizione al decreto ingiuntivo - Le azioni reali - il litisconsorziodei condomini - I procedimenti di volontaria giurisdizione - L'arbitrato - L'arbitrabilità delle controversie condominiali - La convenzione d'arbitrato - Installazione dell'ascensore - Il diritto del singolo condomino - Limitazioni previste: innovazioni vietate e non vietate - Innovazioni gravose e voluttuarie - Il riscaldamento nel condominio - Presunzione di comproprietà - Il principio del pari godimento - Manutenzione - Funzionamento - Ripartizione delle spese Giuseppe Cassano Avvocato (www.studiolegalecassano.it), già docente di Istituzioni di Diritto Privato nell'Università LUISS di Roma, è direttore del Dipartimento di Scienze Giuridiche dell'European School of Economics. Ha pubblicato orientativamente duecento contributi fra note, saggi e volumi, in particolare in tema di diritto dell'Internet, diritto di famiglia, responsabilità civile e tutela della persona.

"Superbonus in 10 mosse" è una guida ragionata al procedimento di riqualificazione dell'edificio condominiale per ottenere la detrazione incentivante. Una tabella di marcia che l'amministratore di condominio può utilizzare, grazie agli schemi riepilogativi, alla modulistica integrata e all'esame dei provvedimenti dell'Agenzia delle entrate, per rispondere ai quesiti dei condòmini ed orientare al meglio le scelte dell'assemblea. Un utile strumento anche per i proprietari di immobili chiamati a valutare le soluzioni tecnico-finanziarie reperibili sul mercato delle ristrutturazioni con l'obiettivo di rendere la propria casa più sicura e confortevole grazie all'impiego intelligente del credito fiscale maturato.

Andrew Ford here addresses, in a manner both engaging and richly informed, the perennial questions of what poetry is, how it came to be, and what it is for. Focusing on the critical moment in Western literature when the heroic tales of the Greek oral tradition began to be preserved in writing, he examines these questions in the light of Homeric poetry. Through fresh readings of the Iliad and the Odyssey, and referring to other early epics as well, Ford deepens our understanding of what poetry was at a time before written texts, before a developed sense of authorship, and before the existence of institutionalized criticism. Placing what is known about Homer's art in the wider context of Homer's world, Ford traces the effects of the oral tradition upon the development of the epic and addresses such issues as the sources of the poet's inspiration and the generic constraints upon epic composition. After exploring Homer's poetic vocabulary and his fictional and mythical representations of the art of singing, Ford reconstructs an idea of poetry much different from that put forth by previous interpreters. Arguing that Homer grounds his project in religious rather than literary or historical terms, he concludes that archaic poetry claims to give a uniquely transparent and immediate rendering of the past. Homer: The Poetry of the Past will be stimulating and enjoyable reading for anyone interested in the traditions of poetry, as well as for students and scholars in the fields of classics, literary theory and literary history, and intellectual history.
