I have a 1995 Isuzu Trooper that wont start. When I turn the key it sounds like the spark plugs aren't firing , but I put new ones in I also changed the spark plug cables the cables are in the right order but it still wont start. If you can help me i would be very great full thanks. Try and shoot a little fuel in the throat of the throttle body or air cleaner to make sure its not a fuel problem .

The engine idle should be at constant revs but this issue makes the revs jump and down. The idle air control (IAC) valve is known for failing on this vehicle, which not only causes the above problem but can mean that your engine cuts out unless you apply some gas. Watch the video below to see this problem in action:
