while exploring its self-renewing culture...

~~Calcutta: NPR~~

The book records Chaudhuri's experiences during his first two years in the city after moving from England. Rather than focus on Calcutta's lower depths, he brings out its true diversity.

So far, December 2020 proved to be the worst in the last two years, despite no major change in atmospheric temperature, said a study. According to the Centre for Science and Environment (CSE), in the first two weeks of December, the city saw its worst peak of PM2.5 level, compared to December 2019. It hovered around 130 µg/m³ on an average.
