Home is where the heart is: the heart finds the right home for the body and mind. If you do not fit no matter how hard you try, you need to move on, while there is still some dignity left in you. Dignity means not to be a slave to anyone, man or God. We live on this Earth, and the right place will become available to accommodate one. The place will be the one that one is comfortable in both in mind and body, where one has a chance to progress. When all progress has ended one needs to renew one ' s field of pasture. India is the land of Spirituality, the destination but not at any cost. Liberty to move anywhere one wishes comes highest on the list of priorities.

An acclaimed novel by the author of *The Mistress of Spices*, and *Before We Visit the Goddess*. Jhumpa Lahiri praises: "One Amazing Thing collapses the walls dividing characters and cultures; what endures is a chorus of voices in one single room." Late afternoon sun sneaks through the windows of a passport and visa office in an unnamed American city. Most customers and even most office workers have come and gone, but nine people remain. A punky teenager with an unexpected gift. An upper-class Caucasian couple whose relationship is disintegrating. A young Muslim-American man struggling with the fallout of 9/11. A graduate student haunted by a question about love. An African-American ex-soldier searching for redemption. A Chinese grandmother with a secret past. And two visa office workers on the verge of an adulterous affair. When an earthquake rips through the afternoon lull, trapping these nine characters together, their focus first jolts to their collective struggle to survive. There's little food. The office begins to flood. Then, at a moment when the psychological and emotional stress seems nearly too much for them to bear, the young graduate student suggests that each tell a personal tale, "one amazing thing" from their lives, which they have never told anyone before. And as their surprising stories of romance, marriage, family, political upheaval, and self-discovery unfold against the urgency of their life-or-death circumstances, the novel proves the transcendent power of stories and the meaningfulness of human expression itself. From Chitra Divakaruni, author of such finely wrought, bestselling novels as *Sister of My Heart*, *The Palace of Illusions*, and *The Mistress of Spices*, comes her most compelling and transporting story to date. *One Amazing Thing* is a passionate creation about survival--and about the reasons to survive.

Briefly describes the culture and history of India, and gives tips on shopping, sightseeing, taking photographs, dining, and selecting accommodations.

The one book you need on the New India. In 2004, after six years in New York, Siddhartha Deb returned to India to look for a job. He discovered that sweeping change had overtaken the country. With the globalization of its economy, the relaxation of trade rules, the growth in technology, and the shrinking down of the state, a new India was being born. Deb realised he had found his job: to explore this vast, complex and bewildering nation and try to make sense of what was underway. *The Beautiful and the Damned* is the triumphant outcome. It is a virtuosic work that combines personal narrative, travelogue, reportage, penetrating analysis, and the stories of many individuals across a vast range of geographical and social circumstances. Deb talks to the great and good and those in charge, but listens as intently to the worker at the call centre remaking herself from her provincial upbringing and the migrant sweatshop worker trying to make his way in the city. By listening to the stories of the people he meets and works alongside (the author did his time on the phones at a call centre) Deb shows how people caught in the midstream of these changes actually experience them. Visiting the metropolises, small towns, and villages, as well as both gated suburban communities and camps for displaced peasants, Deb offers a panoramic view of the changes in landscape and urban geography, creating an epic narrative of the people who make up the world's second-most populous (and soon to be the most populous) nation. This is a work of social reportage that presents the reader with the fullest and most enlightening picture of a diverse, emerging superpower.

How many of us complain about our country and believe nothing will ever change? How many of us crib about the dirt in this country but still litter openly? How many of us abuse our ministers and government but still never vote? Most of us, right? Harsh, Dev and Nikita are three such Indians. Until one fateful day..... What do the three of them do then? Keep quiet and sulk about it for the rest of their life, crib and complain and forget about it like they always do or fight for justice. They do none of the above. Instead they turn to facebook.com. But what they fighting for? Will we Indians ever care? Can the new age social networking tools really help? Will the country ever change or will the ' chalta hai ' attitude prevail??? Come and be a part of the change.....

A riotous tour of India by train and a stunning debut by a young writer with verve and style.
