October 1942. At a secret rendezvous point off the coast of neutral Argentina, a small merchant ship delivers supplies to Nazi submarines and raiders. The OSS is determined to sabotage the operation by any means necessary. But one of the key saboteurs they've enlisted--a young U.S Marine--must fight his own private battle between duty and honor. Because he was chosen for a reason--to gain trust and support of his own flesh and blood. A powerful Argentinian called "el Coronel." The father he never knew...

“ Jerry Nelson ’ s column comes from the true heart of the Midwest. He has the true voice, the slow twang. He knows wheat from barley. He knows hardware, he knows vegetation, he knows people. ” —Garrison Keillor In the tradition of Mark Twain and Jean Shepherd, Dave Barry and Garrison Keillor, Jerry Nelson is a humorist whose beat is the American heartland, a small-town world of pickup trucks and Sunday night pancake dinners, dropping in on neighbors and complaining about the county agent. His depictions of daily life, from the point of view of an ex-dairy farmer and taciturn husband with a twinkle in his eye, are read by 250,000 people a week—and occasionally woven into Prairie Home Companion scripts. These are stories of courtship; childbirth—he offers the delivery room doctor the use of his calf puller; family; neighbors; chores; and the duties of a father—why is it that a man who spends his days in cow manure can ’ t change a baby ’ s diaper? Knee-slappingly funny one moment, poignant the next, it ’ s a very special look at a distinctly American way of life.

In desperate need of money, Tessa agrees to appear on a reality TV show called A Month in the Life of a Victorian Duke, where she must live on an English estate circa 1879, wear corsets, and pretend to be married to a real-life duke who unexpectedly steals her heart. Original.

A new translation of two lesbian tales--Aphrodite and Songs of Bilitis--bestsellers in the last century. They were last translated in 1913 using ambiguous terms appropriate for the times. The new translation tells it like it is.

We don't know how much time we have on Earth, but we can make the most of the time we have. Our health and wellbeing is the most important thing we have. When we are in good health everything in our lives is better and more fun. Unfortunately, this state of being does not last forever. It is much easier to prepare for the day when we are facing illness, whether it is mild distress or a serious and possibly terminal disease, when we are healthy, rather than when time is an issue. In the U

This book describes the depressive in his or her natural habitat, studies the everyday problems that cause one's depression, and develops treatment approaches directed to the depressive's real-world plight. It explores the borderland between the sacred and the profane, the academic and the popular, the scientific but impractical, and the practical but unscientific. It relies as much on common sense, anecdote, and individual insight as it does on case histories and psychological test protocol. The book is divided into four sections: description, cause, prevention, and treatment. The descriptive section presents the mental-status abnormalities in depression, includes a differential diagnosis of classic depressive symptoms, indicates when so-called classic symptoms of another disorder are in fact depressive, lists the physical complaints that are the product of depression, discusses normal depression, and touches briefly on hypomania. The section on cause recognizes that real troubles are common and chemical troubles rare. It suggests that people do not get depressed because they are under stress or they have suffered loss, but, in simple language, because their boss has threatened to fire them, their wife has threatened to leave, the cat has died, and other similar real-life difficulties. It faces the problems that therapists and patients alike find unpalatable, shameful, and threatening--the things that cause patients to close their eyes or speak in remote euphemisms. The sections on prevention and therapy are not attached to any one school of thought. They are formulated and expressed simply and humanistically, and offer common-sense solutions to the depressives's everyday problems with themselves and their world.
