same substances that Lord Liu identified six hundred years ago! For centuries, the Liu family has guarded the secrets Lord Liu discovered about healthy living and disease prevention through experiments he conducted in order to ascertain the most effective treatment of a wide range of diseases and health issues. Recently, Dr. Liu Hong Zhang, Lord Liu ' s twenty-fourth-generation descendant, published a portion of these family secrets in three tomes—Lord Liu Chun ' s *Enhancement of Life, Your Lifestyle is the Cause of Disease, and Beware of Medicine*. Dr. Liu wrote the books despite opposition from family members who didn ' t want him to reveal the secrets. His vision was to share the family ' s wealth of knowledge, and the three books disclose a tenth of Lord Liu ' s research. The words of Lord Liu Chun and his twenty-fourth-generation descendant, as well as the Liu family

A fascinating record of the new urban popular culture that emerged in Shanghai's foreign settlements at the end of the nineteenth century

A New York Times Notable Book  
Empress Dowager Cixi (1835 – 1908) is the most important woman in Chinese history. She ruled China for decades and brought a medieval empire into the modern age. At the age of sixteen, in a nationwide selection for royal consorts, Cixi was chosen as one of the emperor ' s numerous concubines. When he died in 1861, their five-year-old son succeeded to the throne. Cixi at once launched a palace coup against the regents appointed by her

husband and made herself the real ruler of China—behind the throne, literally, with a silk screen separating her from her officials who were all male. In this groundbreaking biography, Jung Chang vividly describes how Cixi fought against monumental obstacles to change China. Under her the ancient country attained virtually all the attributes of a modern state: industries, railways, electricity, the telegraph and an army and navy with up-to-date weaponry. It was she who abolished gruesome punishments like “ death by a thousand cuts ” and put an end to foot-binding. She inaugurated women ’ s liberation and embarked on the path to introduce parliamentary elections to China. Chang comprehensively overturns the conventional view of Cixi as a diehard conservative and cruel despot. Cixi reigned during extraordinary times and had to deal with a host of major national

crises: the Taiping and Boxer rebellions, wars with France and Japan—and an invasion by eight allied powers including Britain, Germany, Russia and the United States. Jung Chang not only records the Empress Dowager ' s conduct of domestic and foreign affairs, but also takes the reader into the depths of her splendid Summer Palace and the harem of Beijing ' s Forbidden City, where she lived surrounded by eunuchs—one of whom she fell in love, with tragic consequences. The world Chang describes here, in fascinating detail, seems almost unbelievable in its extraordinary mixture of the very old and the very new. Based on newly available, mostly Chinese, historical documents such as court records, official and private correspondence, diaries and eyewitness accounts, this biography will revolutionize historical thinking about a crucial period in China ' s—and the world ' s—history.

Packed with drama, fast paced and gripping, it is both a panoramic depiction of the birth of modern China and an intimate portrait of a woman: as the concubine to a monarch, as the absolute ruler of a third of the world ' s population, and as a unique stateswoman.

In a remarkable and broad-ranging narrative, Yangwen Zheng's book explores the history of opium consumption in China from 1483 to the late twentieth century. The story begins in the mid-Ming dynasty, when opium was sent as a gift by vassal states and used as an aphrodisiac in court. Over time, the Chinese people from different classes and regions began to use it for recreational purposes, so beginning a complex culture of opium consumption. The book traces this transformation over a period of five hundred years, asking who introduced opium to China, how it spread

across all sections of society, embraced by rich and poor alike as a culture and an institution. The book, which is accompanied by a fascinating collection of illustrations, will appeal to students and scholars of history, anthropology, sociology, political science, economics, and all those with an interest in China.

The first comprehensive history of Republican Beijing, with a focus on social and cultural life in the city. This book examines how Republican Beijing, through the very processes of modernization and the material and cultural practices of recycling, acquired its identity as a consummately "traditional" Chinese city.

The first history of Chinese cities from their early origins to becoming the largest urban society in the world.

This book is part of an initiative in cooperation with renowned Chinese publishers to make fundamental, formative, and influential Chinese thinkers available to a western readership, providing absorbing insights into Chinese reflections of late. Haipeng Zhang and Jinyi Zhai provide us with a history of China's struggle for national independence and prosperity, reflecting the “humiliation” in the “sinking” period and the “struggle” during the “rising” period. After the Japanese aggressions against China had caused more damage to China than all previous invasions, Chinese society not only avoided the continued "sinking", but also laid the foundation for China's modernization and the recent success story to the present day.

Innovatively extending counterfactual thought experiments from history and the social sciences to literary historiography, criticism and theory, *Counterfactual Romanticism* reveals the ways in which the shapes of Romanticism are conditioned by that which did not come to pass. Exploring various modalities of counterfactual speculation and inquiry across a range of Romantic-period authors, genres and concerns, this collection offers a radical new purchase on literary history, on the relationship between history and fiction, and on our historicist methods to date – and thus on the Romanticisms we (think we) have inherited. *Counterfactual Romanticism* provides a ground-breaking method of re-reading literary pasts and our own reading presents; in the process, literary

This sweeping survey is the first complete account of nearly 150 years of Protestant missions in Shanxi Province, China.

Beginning with the arrival of the Protestant missionaries during the 1878 North China Famine and the fiery test of the 1900 Boxer Uprising and subsequent martyrdom of hundreds of Shanxi Christians, this important book brings together the historical accounts of the spread of Christianity in the province all the way up to the present. From the personal papers and contemporary records of the missionaries, Kaiser draws a vivid picture of the women and men who devoted their lives to advancing the cause of the gospel in Shanxi. He weaves the stories of bold local Christians like Pastor Hsi and such notable missionaries as

Gladys Aylward, Timothy Richard, Hudson Taylor, and the Cambridge Seven into the broader tapestry of China missions, tracing the birth and development of a thriving and dynamic Shanxi church. Drawing on mission archives, academic studies, and firsthand knowledge, this fusion of scholarly inquiry with missionary biography aims to both inspire and inform, making the lessons of the missionary past available to a new generation of readers.
