por sí mismos lo que significa perderse en las calles del infinito Multiverso. Sin embargo, ahora

Alex, Jenny e Marco hanno provato sulla loro pelle cosa vuol dire perdersi nelle infinite strade del Multiverso. Ora, però, non sanno come uscire da Memoria, una dimensione mentale, non meno chiusa di una gabbia, nella quale vedono solo ciò che ricordano. Mentre i secoli trascorrono dopo la fine della loro civiltà, una nuova Era comincia sul pianeta Terra. Ma in che modo si possono usare i ricordi per fuggire da Memoria e scampare all'eterna condanna? Quali segreti disseppelliti dal passato permetteranno loro di risvegliarsi nel futuro?

Après la catastrophe qui s'est abattue sur la Terre, Jenny et Alex se trouvent plongés dans Memoria, une dimension mentale qui n'existe qu'à travers leurs propres souvenirs... Une passion amoureuse bouleversante dans un dédale d'univers parallèles.

Après la catastrophe qui s'est abattue sur la Terre, Jenny et Alex se trouvent plongés dans Memoria, une dimension mentale qui n'existe qu'à travers leurs propres souvenirs. passion amoureuse bouleversante dans un dédale d'univers parallèles. «Passionné depuis longtemps par la "fringe science", je me suis fondé sur l'idée psychique des univers parallèles pour écrire ce roman. J'ai donc adapté les théories scientifiques à ma propre vision de la vie et du monde. Dans mon histoire, tout dépend de notre esprit, qui est la clé donnant accès au Multivers.» Leonardo Patrignani Un voyage fascinant dans l'espace et le temps, où se mêlent une énigme insoluble et une histoire d'amour infinie. Un livre à couper le souffle !

Calculating God is the new near-future SF thriller from the popular and award-winning Robert J. Sawyer. An alien shuttle craft lands outside the Royal Ontario Museum in Toronto. A six-legged, two-armed alien emerges, who says, in perfect English, "Take me to a paleontologist." It seems that Earth, and the alien's home planet, and the home planet of another alien species traveling on the alien mother ship, all experienced the same five cataclysmic events at about the same time (one example of these "cataclysmic events" would be the meteor that wiped out the dinosaurs). Both alien races believe this proves the existence of God: i.e. he's obviously been playing with the evolution of life on each of these planets. From this provocative launch point, Sawyer tells a fast-paced, and morally and intellectually challenging, SF story that just grows larger and larger in scope. The evidence of God's universal existence is not universally well received on Earth, nor even immediately believed. And it reveals nothing of God's nature. In fact. it poses more questions than it answers. When a supernova explodes out in the galaxy but

close enough to wipe out life on all three home-worlds, the big question is, Will God intervene or is this the sixth cataclysm:? Calculating God is SF on the grand scale. Calculating God is a 2001 Hugo Award Nominee for Best Novel. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Continúa la historia de Alex, Jenny y Marco en el Multiverso. Alex, Jenny y Marco han comprobado por sí mismos lo que significa estar perdido en las calles infinitas del Multiverso. Sin embargo, ahora no saben cómo salir de Memoria, una dimensión mental, tan cerrada como una jaula, en la que pueden ver únicamente aquello que recuerdan. Mientras transcurren los siglos y se precipita el final de su propia época, comienza una nueva Era en el planeta Tierra. ¿Cómo conseguirán valerse de los recuerdos para escapar de Memoria y evitar una condena eterna? ¿Qué secretos diseminados por el pasado les permitirán despertarse de nuevo en el futuro?

Poets. Geniuses. Revolutionaries. The members of the legendary band Lemonade Mouth have been called all of these things. But until now, nobody's known the inside story of how this powerhouse band came to be. How five outcasts in Opoquonsett High School's freshman class found each other, found the music, and went on to change both rock and roll and high school as we know it. Wen, Stella, Charlie, Olivia, and Mo take us back to that fateful detention where a dentist's jingle, a teacher's coughing fit, and a beat-up ukelele gave birth to Rhode Island's most influential band. Told in each of their five voices and compiled by
