How do you make your way in a world that is changing at an unprecedented rate? Why do we have less and less time? Why are some people unfaithful? How can our government act against threats before they happen? This book is about change - from the small and seemingly insignificant transitions in our day-to-day lives, to the big and almost incomprehensible shifts in human history. Drawing on expert advice and often complex theories, the authors of the bestselling The Decision Book present fifty simple and effective models to help us make sense of change in our world. Change is happening all around us, in every sphere from the personal and political to economics and the environment. In The Change Book you'll find models explaining the financial crisis, why biotechnology is the industry of the future and why cities are the new nations. Whether you're buying a new car, deciding who to vote for, or making an investment, this little black book will offer surprisingly simple explanations of our complicated world - and radically challenge some of your preconceived ideas.

A short, sharp guide to tackling life's biggest challenges: understanding ourselves and making the right choices. Every day offers moments of decision, from what to eat for lunch to how to settle a dispute with a colleague. Still larger questions loom: How can I motivate my team? How can I work more efficiently? What is the long tail anyway? Whether you're a newly minted MBA, a chronic second-guesser, or just someone eager for a new vantage point, The Decision Book presents fifty models for better structuring, and subsequently understanding, life's steady challenges. Interactive and thought-provoking, this illustrated workbook offers succinct summaries of popular strategies, including the Rubber Band Model for dilemmas with many directions, the Personal Performance Model to test whether to change jobs, and the Black Swan Model to illustrate why experience doesn't guarantee wisdom. Packed with familiar tools like the Pareto Principle, the Prisoner's Dilemma, and an unusual exercise inspired by Warren Buffet, The Decision Book is the ideal reference for flexible thinkers.

Top Business Psychology Models is a quick, accessible overview to the fundamental theories and frameworks that will help you understand human behaviour, emotions and cognition at work. Clear, succinct and well-referenced chapters also offer routes into accessing further information. Free of academic jargon, Top Business Psychology Models explains all the main theories and models used by psychologists, giving you all the essential information to immediately implement business psychology techniques in your organization.

What would be your ideal job if you didn't have to worry about money? Would you like to have more responsibility or less? How far would you go for a promotion? When did you last stand up for what you believe in? What are you afraid of? In this unique handbook to your own life and work, there are no right or wrong answers: only honest ones. Featuring sections on subjects everyone can relate to, from the professional (work and finance), to the personal (sex and relationships), The Question Book can be used alone, like a journal; or with a colleague, partner or friend. It will probe and enlighten on everything, including what your boss really thinks about you, whether you are in the right job, and what motivates you to get out of bed every morning. These wide-ranging questions - which provoke short 'yes or no's as well as open-ended responses that dig deeper - are pertinent, direct, and compulsively fun to answer. In The Question Book, you are under the spotlight. And only you have the answer.

New York Times Bestseller Nigel Barker—fashion authority, photographer, and host of Oxygen's The Face—presents 50 of the most influential models from the 1940s to today through a wealth of full-color photographs from the world's most renowned fashion photographers and an anecdotal text that reveals each woman's indelible place in the pantheons of fashion and popular culture. Interweaving 200 gorgeous photographs and informative and entertaining anecdotes, Models of Influence profiles 50 women who have made an unforgettable impression on fashion, the modeling industry, and our notions of beauty. Eight chronological chapters, each of which spotlight an era, feature the stories and images of women who made their mark. These include Lisa Fonssagrives-Penn, Dovima, and Dorian Leigh, who reigned during modeling's golden age in the 1950s; Twiggy, Veruschka, and Jean Shrimpton, who embodied the free spirit of the 1960s; and Lauren Hutton, Iman, and Janice Dickinson, models who revolutionized the notion of beauty in the 1970s. Barker profiles those who've become the million-dollar faces of their time, such as Christie Brinkley and Elle Macpherson; revisits the age of the supermodel, when Christy Turlington, Linda Evangelista, and Naomi Campbell rose to global stardom; and spotlights eternal chameleons Kate Moss, Stella Tennant, and Amber Valletta, among others. Also included are models who brought us into the twenty-first century, and those who are leading the way into the future, from Gisele Bündchen, Daria Werbowy, Liya Kebede, and Coco Rocha to Cara Delevingne, Karlie Kloss, Lara Stone, Joan Smalls, and Kate Upton. Nigel Barker showcases each model's incandescent style—that special something that sets her apart, whether it's her unique physicality, a daring approach to image-making, or a particular energy that reflects the zeitgeist. Here, too, are models who broke the mold in their respective eras and turned the standard notion of beauty on its head. Stunning in its breadth and beauty, comprising some of the finest fashion images over the last 70 years, Models of Influence is a celebration of fashion and a group of unforgettable women who have helped shape and change modern culture.

An essential library of tests for self-knowledge and success, from the strategic thinking experts behind the international bestseller The Decision Book. Are you clever? Can you self-motivate? Are you creative? How do you handle money? Can you lead others well? With their trademark style and wit, best-selling authors Mikael Krogerus and Roman Tschäppeler present sixty-four tests spanning intelligence and personality type; creativity and leadership skills; fitness and lifestyle; and knowledge and belief. From what you see in a Rorschach test to comparing your workout against a Navy SEAL's, from EQ to IQ and Myers-Briggs in between, The Test Book offers a panoply of ways to assess yourself and decide what you need to succeed. As Krogerus and Tschäppeler highlight, you can only know whether you have the right skills, the right job, or the right partner when you know where you stand right now. Small enough to fit in your pocket but packed with insight and good humor, The Test Book delivers a quick, fun way to evaluate your life and happiness.

LEAD will develop you as a leader in a dynamic way that goes to the heart of your purpose and dreams. Offers advice on how to lead an organization into change, including establishing a sense of urgency, developing a vision and strategy, and generating short-term wins.

The New York Times-bestselling "skeptical environmentalist" argues that panic over climate change is causing more harm than good Hurricanes batter our coasts. Wildfires rage across the American West. Glaciers collapse in the Arctic. Politicians, activists, and the media espouse a common message: climate change is destroying the planet, and we must take drastic action immediately to stop it. Children panic about their future, and adults wonder if it is even ethical to bring new life into the world. Enough, argues bestselling author Bjorn Lomborg. Climate change is real, but it's not the apocalyptic threat that we've been told it is. Projections of Earth's imminent demise are based on bad science and even worse economics. In panic, world leaders have committed to wildly expensive but largely ineffective policies that hamper growth and crowd out more pressing investments in human capital, from immunization to education. False Alarm will convince you that everything you think about climate change is wrong -- and points the way toward making the world a vastly better, if slightly warmer, place for us all.
